

Essential Expertise for Clinical Dentistry 4 Summer Intensive Course 2018

This course offers you up-to-date dental clinical knowledge and techniques that are often publicized in journals or books. Experts in various fields will provide lectures and hands-on sessions.

This course aims at not only 1) updating participants' dental knowledge (lectures) but also 2) developing and brushing up clinical techniques (hands-on sessions). You will have the chance to actually engage in discussions with your peers and join hands-on clinical focused sessions.

Overview

- You can join lectures and two hands-on sessions.
- Each session is 75-120 minutes.

In this course, you will:

- Learn dental knowledge through interactive lectures and discussion.
- Practice clinical techniques and skills in the hands-on sessions.

After this course, you will be able to:

- Have dental knowledge and new approaches for future treatments.
- Consider your clinical cases from a critical perspective.
- Use skills for clinical procedures.

Textbook (none)

Instructor will provide the written materials, if any.

Note

- Maximum enrollment for this course is 10.
- Only those who graduated from dental school and TMDU 6th year students can join this course.
- A certificate of completion will be given to those who attend every assigned session.
- For hands-on sessions, you can join two from below. Enrollment capacity is limited to 6-7 participants. Please order your selections from 1 (most desired) to 3 (least desired). Kindly keep in mind, that because of enrollment limitation, there may be cases where we cannot accept your first request.
