Admission Policy

>>> It will be described upon determination <<<

※Our Graduate School Partnership Program

(1) Partner graduate schools

These national, private, and public university graduate schools work together to use their mutual educational and research resources effectively and to enhance their capabilities to contribute to education, research, and society through links and cooperation among institutions of higher education. The partner graduate schools organize joint scholastic curricula and confer degrees in partnership.

(2) Special features of graduate school partnership

1. Degrees are conferred through collaboration between the University of Kochi, the University of Hyogo, Chiba University, TMDU, and the Japanese Red Cross College of Nursing.
2. A five-year integrated doctoral program is offered that is based on the Program for Leading Graduate Schools.
3. While students are registered with the five universities, they are actually enrolled in the university that the full-time faculty member who is primarily responsible for the supervision of their research (main faculty advisors) belongs to. Students are able to receive the same services as the other students at the university that they are enrolled at. Further, they can also use the libraries at universities where they are not enrolled. However, they may not be able to use some facilities, depending on the situations at the respective universities.
4. Students can receive research guidance from faculty members (auxiliary faculty advisors) at member universities other than the ones at which they are enrolled.
5. At the universities where they are enrolled, students can use audiovisual devices to attend teleseminars of lectures held by member universities.

※ Important Announcement about Cooperative Doctoral Course in Disaster Nursing

(1) Communication with the university to which you have applied (essential)

Regarding applications (including requests for approval of application qualifications), please contact the university to which you want to apply in advance and be sure to confirm the content of your research and the date of the entrance examination.

(2) Regarding the university where you will apply, take the entrance exam, and be enrolled

Please submit your application to the university of your choice. You will take your entrance examination at that university.

You will be enrolled at the university where you applied and took the entrance examination, and you will be treated as a student of that university with regard to tuition payments, scholarship applications, and such.

(3) Point to note regarding submission of applications

The curriculum in this program is offered jointly by five universities, so anyone who has completed enrollment procedures for the cooperative disaster nursing program at one of the five member universities may not undertake procedures to enroll for the same course at the other member universities.

1. Number of New Admissions

Track	Program	Number of new admissions	Remarks
Nursing Innovation Science	Doctoral program	13	Including a small number for graduate school courses for working adults
Cooperative Doctoral Course in Disaster Nursing	Doctoral Program	2

Track	Program	Standard number of years required to complete course	Degree acquired
Nursing Innovation Science	Doctoral program	5	Doctor of Nursing Science
Cooperative Doctoral Course in Disaster Nursing	Doctoral Program	5	Doctor of Nursing Science Note: Confer the title of DNGL (Disaster Nursing Global Leader)

3. Enrollment Period

April 2020

4. Application Qualifications

Doctoral Program, Nursing Innovation Science Track

Cooperative Doctoral Course in Disaster Nursing

Applicants to whom any of the following apply

- (1) Applicant has graduated from university or expects to graduate by March 2020
- (2) Applicant has received a bachelor's degree in accordance with the provisions of Article 104, Clause 4, of the School Education Act or expects to complete the course of a junior or technical college by March 2020 and receive a degree in accordance with the act
- (3) Applicant has completed a 16-year course of scholastic education in a foreign country or expects to complete such a course by March 2020
- (4) Applicant has completed a foreign country's 16-year course of scholastic education in Japan by completing correspondence classes offered by schools in that country or expects to complete such a course by March 2020
- (5) Applicant has completed the course of study of a foreign educational facility that is designated in Japan as having the course of study of a university under the foreign country's educational system (limited to facilities whose graduates have completed 16 years of education within the foreign country's educational system) and has been specifically designated by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) minister or expects to complete such a course of study by March 2020
- (6) Applicant has received or expects to receive an academic degree equal to a bachelor's degree in foreign university or other institute (limited to the facilities which the MEXT minister appoints as a facility which received the evaluation about the general situation such as the education research activities or a facility which follows it by the person who received the certification of the foreign government or the related organization) by completing courses that are 3 years or more in length (include completing the courses in Japan by completing correspondence classes offered by schools in that country and the course of study of a foreign educational facility that is designated under the foreign country's educational system) by March 2020
- (7) Applicant has completed a special vocational school training course (limited to courses that are four years or more in length and meet other criteria stipulated by the MEXT minister) as separately specified by the MEXT minister on or after a date specified by the MEXT minister or expects to complete such a course by March 2020
- (8) Applicant has been specified by the MEXT minister in accordance with Ministry of Education, Science and Culture Notice No. 5 of 1953

- (9) Applicant who is enrolled in a graduate school as stipulated in Article 102, Clause 2, of the School Education Act and whom this graduate school deems to have the appropriate scholastic abilities to receive graduate school training
- (10) Applicant whom the graduate school has confirmed through a separate entrance qualification examination possesses scholastic abilities equal to or exceeding those of a university graduate and who will have reached 22 years of age by March 31, 2020
- (11) Applicant attended university for three or more years and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits
- (12) Applicant has completed a 15-year course of scholastic education in a foreign country and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits
- (13) Applicant has completed a 15-year course of scholastic education in a foreign country by completing correspondence courses offered by schools in that country and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits
- (14) Applicant has completed the course of study of a foreign educational facility that is designated in Japan as having the course of study of a university under the foreign country's educational system (limited to facilities whose graduates have completed 15 years of education within the foreign country's educational system) and has been specifically designated by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) minister and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits

Note: Applicants falling under (9) to (14), please see content 12, "Screening of Application Qualifications."

5. Application Schedule

Application period	First round applications	Mon, June 17 to Fri, June 21, 2019 (Examination Fee can be transferred from Mon, June 10, 2019)
	Second round applications	Mon, December 2 to Fri, December 6, 2019 (Examination Fee can be transferred from Mon, November 25, 2019)
Submit application to	Admission Section, Institute of Education, TMDU (1F, Bldg. 1 West)	
Hours	Weekdays 9:00. to 12:00 and 13:00 to 17:00

3) Approval methods

Screening to application qualifications is conducted as bellow.

1. Document screening

The abovementioned documents are screened.

2. Interviews

	Interviews
First round applications	Tue, May 28, 2019, from 16:30
Second round applications	Thu, October 24, 2019, from 16:30

4) Result of screening

	Interview outcome
First round applications	Notices to be mailed after Wed, June 12, 2019
Second round applications	Notices to be mailed after Wed, November 13, 2019

To International applicants living outside of Japan, Notice will be emailed.

Note: Please contact the Admission Section if a notice has not arrived by
Mon, June 17 (First round) / Mon, November 18, 2019 (Second round).

13. Points to Note regarding Admissions Exams

Be certain to bring your exam admission slip on exam day. Further, please keep it in a safe place, because you will need it for enrollment procedures after announcement of successful applicants. If you have lost your admission slip, you need have one reissued by the Admission Section on the first floor of Bldg. 1 West before the exam starts.

☐ Transportation

- Please check in advance what types of transportation is available to the exam venue and how long it will take to get there.
- Please keep in mind that transportation may be effected by bad weather, and take care not to be late for the exam.

☐ Items that can be placed on the desk

- Exam admission slip
- Writing implements (HB pencils, mechanical pencils and erasers)
- Pencil sharpener
- Clock (with clock functions only; alarm use is not permitted)

Notes:

1. Dictionaries (including electronic versions) may not be used.
2. All other items should be put in your bag

☐ Directions to the exam venue

- Please pay attention to posted notices that show the way to the exam venue on exam day so that you do not go to the wrong place.
- Before the exam, you may only check the exam building, but you cannot enter the rooms where the exams will be held.

☐ Entering and leaving the examination rooms

- Examinees should enter the designated exam room and be seated 15 minutes before the exam starts.
- Examinees who are carrying mobile phones, portable audio players, or other devices should make sure to switch off alarm settings, turn off the power, and place the items in your bags. If a mobile phone starts buzzing inside a bag, a proctor will take the bag out of the room without asking for the owner's permission (treating it as cheating).
- Examinees who arrive late on exam day due to unavoidable circumstances will be permitted to take the exam if they arrive up to 30 minutes after the exam has begun. However, the exam's duration will not be extended. Please follow the instructions of TMDU officials if arriving late.
- Please have your admission slip with you whenever you enter/leave the room.
- Please make sure not to leave anything behind when you leave the room.

☐ Precautions during exams

- Follow all instructions from proctors while in the exam room.
- All access to areas other than the exam room and designated locations is strongly prohibited.
- Display your admission slip on the top of your desk while you are in the exam room.
- Once the exam starts, you will not be permitted to leave the room until the exam has been completed. Please raise your hand and follow the proctor's instructions if you start to feel ill during the exam, or in any other situation that absolutely cannot be helped. You will not be offered any form of additional assistance, such as extending the exam duration, even if you have been given permission to leave the room. Further, after you leave the room, if more than 30 minutes elapse after the start of the next subject's exam, you will not be allowed to take that exam.
- Write your name and examinee number correctly on the answer sheet. Be aware that you cannot be graded if you provide incorrect information.
- Use HB pencils or mechanical pencils for your answers and not fountain or ballpoint pens or colored pencils.

☐ Other points to note

- Please be aware that anyone who fails to take one of either the written or the oral exams will fail the entrance exam.
- Parents and others who accompany examinees on the day of the exam will not be able to enter the TMDU campus.

Please be aware that there may be people offering to check the announcement of successful applicants for you and passing out leaflets in the vicinity, but these persons have no affiliation whatsoever with

TMDU.

- Ask a TMDU representative (employee wearing an armband displaying the university's name) if you are unclear about anything else.

14. Other

- Please address a notice when submitting your application if you have a physical disability and will need special considerations in the exam room.
- Applicants holding international academic history are asked to contact the Admission Section in advance.
- Enrollment may be cancelled if the particulars contained in application documents are untrue.
- Handling of personal information
 1. Personal information collected during the process of selecting enrollment applicants will be used only for the purposes of selecting enrollment applicants, enrollment procedures, and to undertake tasks related to scholarships, welfare and guidance, and supervision of studies after admittance.
 2. Personal information collected during the process of selecting enrollment applicants will be handled properly in accordance with TMDU's rules for administering personal information and will not be shown or provided to third parties without the consent of the person concerned.
- Please attach documents that provide proof of your surname change if your current surname differs from the one shown in the ID documents you provided.
- Please address inquiries about the entrance examination to the Graduate School Admission Team, Admission Section, Institute of Education.

Note: Applicants must make inquiries in person.
- Incomplete application documents will not be accepted, so please take extreme care when applying. Moreover, alterations to application documents that have been accepted are not permitted.
- Entrance examination and enrollment fees, as well as documents submitted at the time of the application, will not be returned for any reason whatsoever. Before you submit your application, make copies of the originals and store them.
- Past entrance exam papers can be viewed onsite at the Admission Section counter.
- Upon review, this graduate school may in some cases permit applicants who exceed the standard length of time for a course of study because they have jobs or due to other circumstances to systematically study and complete curricula over a fixed period of time. The people who use this program are called "extended studies students," and their total tuition is identical to that of students who complete their studies in the standard period. Please contact the Educational Affairs Section's Graduate School Team 1 at +81-3-5803-4679 (email: grad01@ml.tmd.ac.jp) for details about this program.
- Second round Application may not be conducted if the enrollment capacity has been reached after the First round, so please either check the TMDU website or contact the Admission Section.
- This English version of the application guidelines is courtesy translation. Only Japanese version is final.
