

Job offer for Assistant Professor Position

Medical Research Institute (MRI) of the Tokyo Medical and Dental University (TMDU) invites applications for faculty position (Assistant Professor) in the Laboratory of integrated research projects on intractable diseases: Research Project for Implementation of Precision Cancer Medicine in Squamous Cell Carcinoma (Project for IPCM in SCC)

1. Position: Assistant Professor

2. Areas of Research

The principal aim of the Research Project for Implementation of Precision Cancer Medicine in Squamous Cell Carcinoma (Project for IPCM in SCC) is not only to understand the pathogenesis of SCC of the esophagus, head and neck, and oral cavity, but also to implement new modalities for diagnostics, therapeutics and prevention through integrative omics in the clinical setting. Recently, we identified novel cancer-related microRNAs relevant to cell death, deregulation of EMT and invasion/metastasis, and have begun to work in their application for novel cancer therapies. Additional areas of interest include the role of epigenetics, autophagy and metabolism in tumor progression and metastasis.

We seek outstanding candidates with a strong background in cancer omics, cell biology and biochemistry or medical informatics.

3. Terms and Conditions of Employment

Full-time position with a three-year contract.

Salary will be paid and determined by the annual salary system which follows the TMDU regulations.
