

## **Job offer for Associate Professor or Junior Associate Professor Position**

Medical Research Institute (MRI) of the Tokyo Medical and Dental University (TMDU) invites applications for faculty position (Associate Professor or Junior Associate Professor) in the field of Developmental and Regenerative Biology.

### **1. Position**

Associate Professor or Junior Associate Professor

### **2. Areas of Research**

Our goal is to define the molecular basis for the mechanism of organ formation, regeneration, and maintenance using knockout mice and mutant fish. To accomplish this goal, we have focused on defining signaling molecules and pathways that regulate liver and brain formation and maintenance. Our study will provide new insights into understanding the precise molecular mechanisms that underlie organ failures found in human diseases and will lead to the development of new rational therapy for the diseases.

We are seeking highly motivated candidates with a strong background in the related fields.

### **3. Terms and Conditions of Employment**

Full-time position with a five-year contract, renewable once based on an evaluation according to the rules and regulations of TMDU once.

\*2nd term will end on March 31, 2027.

Salary follows TMDU regulations, and you can choose either the monthly or annual salary system, but this cannot be changed after the appointment.

**\*\*TMDU supports women scientists, foreign researchers and researchers who have engaged in education and research overseas. We encourage them to apply for this position.**
