

**Job Opportunity for  
Professor  
Medical Research Institute, Tokyo Medical and Dental University**

Medical Research Institute, Tokyo Medical and Dental University (MRI, TMDU) is seeking an outstanding candidate for a full Professor. The candidate must show a demonstrated capacity to provide leadership, for an academic research unit, conducting his/her own original high-impact research and postgraduate education as a full Professor, and is required to show a willingness to collaborate with researchers in other disciplines.

**Guidelines for Recruitment**

**1. Position, Affiliation**

Professor, Division of Pathophysiology, MRI, TMDU

**2. Research Field**

Basic and/or applied research concerning intractable diseases

**3. Conditions of Employment**

The length of employment is a maximum of five years. Renewal of employment may be possible based on performance evaluation(s) conducted within the first four years period of employment.

**4. Application Documents**

Each item indicated below must be in A4 size and printed on both sides if applicable.

Documents attached to email are not acceptable.

(1) CV with email address.

(2) A list of publications in the following order: (i) original articles in English, (ii) review/book articles in English, each listed in order from the most recent to the oldest. Articles to which the applicant has contributed substantially (as a first, corresponding, or equivalent author) should be marked with asterisks.

(3) Reprints or printouts of the five most important articles in English.

(4) A summary of each of the five articles above, written on one page (i.e., one side only) in total, including figures if necessary.

(5) A list of invited talks, symposium talks, organized scientific meetings, together in order from the most recent to the oldest.

(6) A list of other achievements (e.g., patents, awards, editorship of scientific journals, refereeing of research articles, and reviewing of grant applications).

(7) A list of grants awarded (source, title, period, and budget size) with a clear indication of PI or other status.

(8) A one-page summary of educational experience (teaching classes and supervising PhD students' research).

(9) A summary of the research conducted up to now, written on one sheet of paper (both sides) and including figures if necessary.

(10) A description of the research plan that will be undertaken after appointment to the Professor position is made, written on one sheet of paper (both sides) and including figures if necessary.

(11) One signed recommendation letter, sealed in an envelope.

(12) Contact information for three references.

The application document set should be prepared in one language exclusively, either in Japanese or in English, aside from the recommendation letter, which can be in the language not used in the other application documents. Please note that none of the documents, once received, will be returned to the sender for any reason.

#### 5. Number of Copies

All the documents should be assembled in order (see above) and fastened with a paper clip; they should not be stapled, bound or put into in any type of folder. Seven photocopies of each document should also be prepared in the same way.

#### 6. Application Deadline

All the necessary documents should be received by Friday, September 22, 2013.

#### 7. Selection Procedure

Initial selection will be made on the basis of the submitted application documents. Final candidates will be interviewed, and will conduct a presentation/seminar in either English or Japanese. Travel expenses may be defrayed, in accordance to the rules and regulation of TMDU.

Please submit application materials, and address any inquiries, to:

Professor Akinori Kimura

Department of Molecular Pathogenesis

Medical Research Institute

Tokyo Medical and Dental University

1-5-45, Yushima, Bunkyo-ku, Tokyo 113-8510
