

About Opening Ceremony for academic year (Announcement of Cancellation)

Dear Incoming Students and Family Members,

Tokyo Medical and Dental University has decided to cancel the Opening Ceremony for both graduate students and undergraduate students.

TMDU has established the Prevention of COVID-19 Virus Infection Committee to oversee all university actions regarding the viral outbreak. Given that the COVID-19 virus has recently been categorized as a pandemic by WHO and TMDU, the committee has decided to prioritize the safety and health of all those involved in the Opening Ceremony and to do its utmost to combat the spread of COVID-19.

We are very aware that the opening ceremony represents for students the beginning of a new stage in life, much anticipated by both students and their families. So it is with much regret that we have had to make this decision in order to secure the safety and health of all involved. We appreciate your understanding of the situation.

Details about various procedures before classes begin will be forthcoming on the TMDU website so please confirm updated information there.

April 6th, 2020 (Mon.) 10:00 **Cancel**

Opening Ceremony for undergraduate students

April 7th, 2020 (Tue.) 13:00 **Cancel**

Opening Ceremony for graduate students
