

Graduate School
Special Lecture
大学院特別講義

(医歯学先端研究特論)(生命理工学先端研究特論)
(生命理工医療科学先端研究特論)(医歯理工学先端研究特論)

This lecture will be delivered in English.

1. Speaker: Prof. Masahiro Umezaki

Department of Human Ecology, Graduate School of Medical
Sciences, The University of Tokyo

**2. Title: Interdisciplinary Nature of Human Ecology and
Anthropology**

3. Time: Thursday, March 25, 2021; 14:00 - 16:00

4. Venue: Via Zoom

5. Abstract: The field of human ecology encompasses a wide range of perspectives in an effort to understand human health in relation to adaptation to physical and social environments. The lecture will provide an overview of the interdisciplinary nature of Human Ecology and Anthropology, including a consideration of how the learning can be used to conduct future research. It will also provide brief information on applying remote sensing and geographic information system (GIS) to Health Sciences. The lecture will include a presentation followed by the interactive question and answer (Q&A) session and discussion.

Please send your interest to participate in the lecture to the following
by March 23rd (Wed.) with the subject line "Special Lecture March 25th".
