II. Educational Outline of Graduate Course

Our section was started as graduate school course of the special dentist region on April first, 1999. The regions are the dentistry for persons with disabilities and medical problems. Main objective of this course is to give the opportunity for students to understand the outline on the dentistry for the disabled. In order to improve the Quality of Life for such patients and also to establish a novel theory and feedback it to the clinic, we are conducting following research projects.

III. Research Subjects

- 1) Analysis of new monitoring system in dental treatment.
- 2) Analysis of special prosthodontic treatment for patients with cerebral palsy.
- 3) Analysis of movements of mandible of patients with cerebral palsy.
- 4) Analysis of dental phobia.
- 5) Development of the welfare equipments.
