Process to Apply

This is general process to apply for the program on TMDU.

- 1. Read** the research of study at each department from the last pages of this guideline, and select your study department.
- 2. Check** your prospective department/supervisor from the list of this guideline, and contact by email or a call. (May not recruit students at some department this year)
- 3. Discuss** about your application for entrance examination, and get application forms once they confirm your application. (Please refer page 11 about how to get the forms)
- 4. Fill in** the forms and prepare the documents. You need the signature from your prospective supervisor on Form 1. You need consult with them how to submit your application forms.
- 5. Pay** the examination fee (JPY36,000) during the application open period. (Please refer page 5 about how to pay)
- 6. Submit** your Application Documents to Admission Section of Graduate School Admission Team by deadline.

It is very important to consult and discuss enough with the prospective department. The applicants are advised to contact your prospective supervisor and prepare the application documents properly.

Tokyo Medical and Dental University
Graduate School of Medical and Dental Sciences,
Doctoral Program,
Medical and Dental Sciences Track

Admission Policy

Applicants are required to have broad perspectives, creativity, autonomy, and a sense of ethics, to be able to logically and precisely express their ideas, and to possess the English language ability to carry out their research. They should also have a high degree of scholastic or practical capabilities in a field such as medicine, dentistry, life sciences and technology, or bioengineering, and should possess additional interest and strong enthusiasm for research in these majors.

1. Number of Students to Be Admitted

181 (including a small number for Graduate School Courses for Working Adults)

2. Standard Academic Years and Degrees Conferred

Four years are normally required until graduation, and any of the following degrees may be acquired. Doctoral degree in Medical Science, Dental Science, Mathematical Medical Science, or Philosophy

3. Enrollment Period

April 2022

4. Application Qualifications

Applicants to whom any of the following apply

- 1) Applicant has graduated or expects to graduate from a university (completing a 6-year program in medicine, dentistry, pharmaceutical sciences, or veterinary sciences) by March 2022
- 2) Applicant has completed an 18-year course of scholastic education (that ended with a curriculum that covered medicine, dentistry, pharmaceutical sciences, or veterinary sciences) in a foreign country or expects to complete such a course by March 2022
- 3) Applicant has completed a foreign country's 18-year course of scholastic education (that ended with a curriculum that covered medicine, dentistry, pharmaceutical sciences, or veterinary sciences) in Japan by completing correspondence classes offered by schools in that country or expects to complete such a course by March 2022
- 4) Applicant has completed the course of study at a foreign educational facility that is designated in Japan as having the course of study of a university under the foreign country's educational system (limited to facilities whose graduates have completed 18 years of education (that ended with a curriculum that covered medicine, dentistry, pharmaceutical sciences, or veterinary sciences) within the foreign country's educational system) and has been specifically designated by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) minister or expects to complete such a course of study by March 2022
- 5) Applicant has received or expects to receive an academic degree equal to a bachelor's degree in foreign university or other institute (limited to the facilities which the MEXT minister appoints as a facility which received the evaluation about the general situation such as the education research activities or a facility which follows it by the person who received the certification of the foreign government or the related organization) by completing courses that are 5 years or more in length (include completing the courses in Japan by completing correspondence classes offered by schools in that country and the course of study of a foreign educational facility that is designated under the foreign country's educational system) by March 2022
- 6) Applicant has been specified by the MEXT minister in accordance with Ministry of Education, Science and Culture Notice No. 39 of 1955
 1. Applicant has completed medicine or dentistry courses at a university medical or dental faculty as set forth in the old University Ordinance (Imperial Ordinance No. 388 of 1918) and graduated from such a faculty
 2. Applicant has graduated from the National Defense Medical College established by the Act for Establishment of the Ministry of Defense (Act No. 164 of 1954) or expects to graduate by March 2022
 3. Applicant has completed a master's degree program or professional graduate school degree program as set forth in article 99, clause 2, of the School Education Act (Act No. 26 of 1947); has the possibility of receiving a master's degree; or was enrolled for 2 or more years in a doctoral degree program that was not divided into a 2-year first half and a 3-year second half, acquired 30 or more credits, and, moreover, received the requisite research guidance (including applicants to whom the academic degree rules under Article 6, Paragraph 1, of the Ordinance of the Ministry of Education, Science and Culture No. 9 of 1953 before they were partially revised by means of the academic degree rules of the Ordinance of the Ministry of Education, Science and Culture No. 29 of 1974 apply), and is deemed to have scholastic abilities equal to or exceeding those of someone who has graduated from a graduate school or graduate degree course after completing a university medicine, dentistry, pharmaceutical science, or veterinary science program
 4. Applicant was engaged in 2 or more years of research at a university or research institute after graduating from a university (excluding programs of medicine, dentistry, pharmaceutical science,

or veterinary science studies) or completing a 16-year course of scholastic education in a foreign country and, based on the outcome of said research at a graduate school or in a graduate degree course, is deemed to have scholastic abilities equal to or exceeding those of someone who has completed a university medicine, dentistry, pharmaceutical science, or veterinary science course

- 7) Applicant who has been enrolled in a graduate school (limited to schools whose programs include studies in medicine, dentistry, pharmaceutical sciences, or veterinary sciences) as stipulated in Article 102, Clause 2, of the School Education Act and whom this graduate school deems to have the appropriate scholastic abilities to receive graduate school training
- 8) Applicant whom this graduate school has confirmed through an entrance qualification screening to possess scholastic abilities equal to or exceeding those of a university graduate (who studied in a 6-year course of study in medicine, dentistry, pharmaceutical sciences, or veterinary sciences) and who will have reached 24 years of age as of March 31, 2022
- 9) Applicant will have been enrolled in a university (limited to a 6-year course of study in medicine, dentistry, pharmaceutical sciences, or veterinary sciences) for 4 or more years by March 2022 and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits
- 10) Applicant has completed a 16-year course of scholastic education in a foreign country (limited to courses that include studies in medicine, dentistry, pharmaceutical sciences, or veterinary sciences) or expects to complete such a course by March 2022 and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits
- 11) Applicant has completed a foreign country's 16-year course of scholastic education (that ended with a curriculum that covered medicine, dentistry, pharmaceutical sciences, or veterinary sciences) in Japan by completing correspondence classes offered by schools in that country or expects to complete such a course by March 2022 and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits
- 12) Applicant has completed the course of study of a foreign educational facility that is designated in Japan as having the course of study of a university under the foreign country's educational system (limited to facilities whose graduates have completed 16 years of education (that ended with a curriculum that covered medicine, dentistry, pharmaceutical sciences, or veterinary sciences) within the foreign country's educational system) and has been specifically designated by the Ministry of Education, Culture, Sports, Science and Technology (MEXT) minister or expects to complete such a course of study by March 2022 and whom this graduate school has recognized as having performed with excellence in acquiring prescribed credits

Note: Applicants falling under 6)-3, 6)-4, and 7) to 12), please see content-12, "Screening of Application Qualifications."

5. Application Schedule

Application period	First round application	<u>July 26 to 30, 2021</u> (Examination Fee can be transferred from July 19)
	Second round application	<u>November 22 to 26, 2021</u> (Examination Fee can be transferred from November 15)
How to apply	Send the application by registered express mail or courier so that it arrives before the application deadline. Also, please inform to Admission Section by email in advance.	
Address	Graduate School Admission Team, Admission Section, Institute of Education, Tokyo Medical and Dental University 1-5-45 Yushima, Bunkyo-ku, Tokyo 113-8510, Japan	

6. Graduate School Courses for Working Adults

We will also be recruiting applicants for Graduate School Courses for Working Adults. You should apply to this course if you will continue to work from April onward.

Number of Students to Be Admitted	A few students
Application Qualifications	Along with the qualifications described in content-4, “Application Qualifications”, applicants who are employed as physicians, dentists, or researchers when they apply
Documents to Be Submitted	Please submit the documents #10~#12 along with those described in content-7, “Application Procedures.” These are specifically for Working Adults. (1) Letter of Consent from employer (2) Essay about reasons for applying (3) Descriptions of Activities, such as Conference Lectures or Research Article Publications, as well as Type of work you do at your place of employment

(<http://www.tmd.ac.jp/english/admissions/application/graduate/index.html>)

3) Approval Methods

Screening to application qualification is conducted as bellow.

1. Document screening
The abovementioned documents are screened.
2. Interviews

	Interviews
First round applications	June 17, 2021, from 14:00
Second round applications	October 26, 2021, from 14:00

4) Result of Screening

	Interview outcome
First round applications	Notices to be mailed after July 21, 2021
Second round applications	Notices to be mailed after November 18, 2021

To International applicants living outside of Japan, Notice will be emailed.

Note: Please contact the Admission Section if a notice has not arrived by July 26 (First round), November 22, 2021 (Second round).

13. Points to Note regarding Entrance Exams

Be certain to bring your exam admission slip on exam day. Further, please keep it in a safe place, because you will need it for enrollment procedures after announcement of successful applicants. If you have lost your admission slip, you need have one reissued by the Admission Section on the first floor of Bldg. 1 West before the exam starts.

- Transportation
 - Please check in advance what types of transportation is available to the exam venue and how long it will take to get there.
 - Please keep in mind that transportation may be effected by bad weather, and take care not to be late for the exam.
- Items that can be placed on the desk
 - Exam admission slip

- Writing implements (HB pencils, mechanical pencils and erasers)
- Pencil sharpener
- Clock (with clock functions only; alarm use is not permitted)

Notes:

1. Dictionaries (including electronic versions) may not be used.
2. All other items should be put in your bag

- Directions to the exam venue
 - Please pay attention to posted notices that show the way to the exam venue on exam day so that you do not go to the wrong place.
 - Before the exam, you may only check the exam building, but you cannot enter the rooms where the exams will be held.
- Entering and leaving the examination rooms
 - Examinees should enter the designated exam room and be seated 15 minutes before the exam starts.
 - Examinees who are carrying mobile phones, portable audio players, or other devices should make sure to switch off alarm settings, turn off the power, and place the items in your bags. If a mobile phone starts buzzing inside a bag, a proctor will take the bag out of the room without asking for the owner's permission (treating it as cheating).
 - Examinees who arrive late on exam day due to unavoidable circumstances will be permitted to take the exam if they arrive up to 30 minutes after the exam has begun. However, the exam's duration will not be extended. Please follow the instructions of TMDU officials if arriving late.
 - Please have your admission slip with you whenever you enter/leave the room.
 - Please make sure not to leave anything behind when you leave the room.
- Precautions during exams
 - Follow all instructions from proctors while in the exam room.
 - All access to areas other than the exam room and designated locations is strongly prohibited.
 - Display your admission slip on the top of your desk while you are in the exam room.
 - Once the exam starts, you will not be permitted to leave the room until the exam has been completed. Please raise your hand and follow the proctor's instructions if you start to feel ill during the exam, or in any other situation that absolutely cannot be helped. You will not be offered any form of additional assistance, such as extending the exam duration, even if you have been given permission to leave the room. Further, after you leave the room, if more than 30 minutes elapse after the start of the next subject's exam, you will not be allowed to take that exam.
 - Write your name and examinee number correctly on the answer sheet. Be aware that you cannot be graded if you provide incorrect information.
 - Use HB pencils or mechanical pencils for your answers and not fountain or ballpoint pens or colored pencils.
- Other points to note
 - Please be aware that anyone who fails to take one of either the written or the oral exams will fail the entrance exam.
 - Parents and others who accompany examinees on the day of the exam will not be able to enter the TMDU campus. Please be aware that there may be people offering to check the announcement of successful applicants for you and passing out leaflets in the vicinity, but these persons have no affiliation whatsoever with TMDU.
 - Ask a TMDU representative (employee wearing an armband displaying the university's name) if you are unclear about anything else.

14. Integrative Biomedical Sciences Programs for Preemptive Medicine

Integrative Biomedical Sciences Programs for Preemptive Medicine are provided in a form straddling Medical and Dental Sciences and Biomedical Sciences and Engineering with the objective of nurturing individuals who will contribute to promote Integrative Sciences for Preemptive Medicine through collaborating with other researchers and specialists in a wide variety of areas, collecting various types of disease-related omics data, analyzing those data in an integrated manner, and developing health management algorithms based on a comprehensive understanding of disease mechanisms with a final goal of their implementation in the society.

○ Clinical Statistics and Bioinformatics Graduate Program

The Clinical Statistics and Bioinformatics Graduate Program is provided for the purpose of acquiring the ability to provide preemptive medical care through collecting and managing the integrated databases of individual human genome and epigenome data and real-time medical record data as well as individual data of lifestyle habits and environmental factors, and analyzing them with data mining techniques.

By studying the stipulated subjects, students taking the Clinical Statistics and Bioinformatics Graduate Program in the Integrative Biomedical Sciences Programs for Preemptive Medicine, will have a supplementary note appended to their diploma, which states that those who have completed this program will promote Integrative Sciences for Preventive Medicine with the research capabilities and substantial fundamental knowledge which contribute to the development of preemptive medicine through analysis by data mining of integrated databases of individual human genome and epigenome data as well as data of lifestyle habits and environmental factors, in addition to the capability indicated by the doctorate (Doctor of Philosophy in Medical Science, Dental Science or Mathematical Medical Science, or Doctor of Philosophy).

The prospective students will be asked whether they wish to take the Clinical Statistics and Bioinformatics Graduate Program in the Integrative Biomedical Sciences Programs for Preemptive Medicine after enrolling.
