※If requested to confirm emergency contact information, click "Contact Registration".

2. Contact Registration

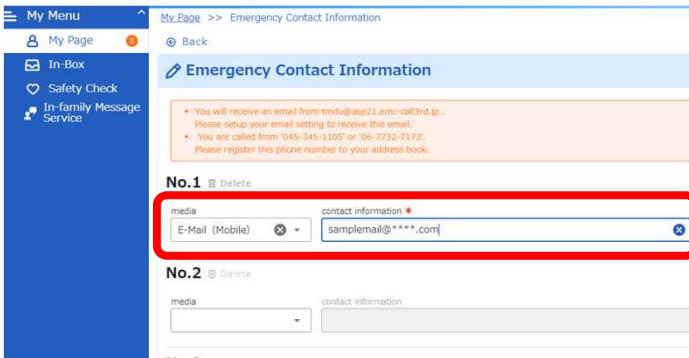

(1) Emergency Contact Registration

① Click "My Page"

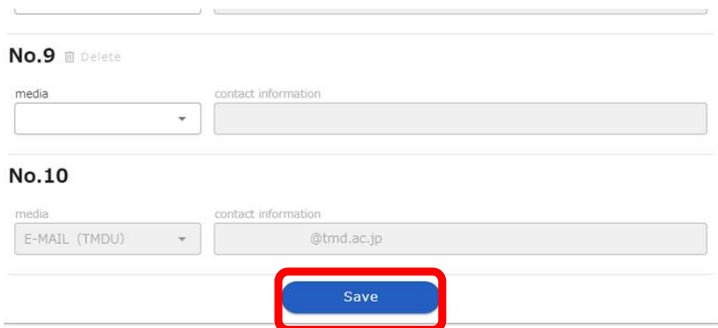

② Click "Setting"

③ Select the registration media from the list and enter your contact information.

TMDU email address (**@tmd.ac.jp) is initially registered. In addition, please register multiple contact information such as personal email address, cell phone number, smartphone application, etc.

Please register your **email address in priority order** from the top.
※Please register so that your phone number comes under your email address.
Up to 10 contacts can be registered. You will receive emails in order starting with the first contact. Once you have responded, you will not receive any further mail from that address onward.

④ Click "Save"

(2) Connection Test

EMERGENCY CALL will send a test email to confirm that the registered email address is correct and that it is not blocked by spam settings, etc., and confirm receipt of the email.

No.9 Delete

media contact information

No.10

media E-MAIL (TMDU) contact information @tmd.ac.jp

Save

① Click "Save"
(The last step of the Emergency Contact Registration process)

Save your contact information

Emergency contact information was updated.

If you try to confirm whether your registered contact information is valid, please do a test from Connection Test page.

Close **Connection Test**

② Click "Connection Test"

Connection Test

You can run a test to contact your registered contact information.

* You will get an email from 'tmdu@asp21.emc-call3rd.jp'.
Please setup your email setting so that you can receive a message from this email address.
* Please check whether your emergency call app is the latest version when contacting your smart device.

(Translation) Emergency call confirmation test.
This is an EMERGENCY CALL transmission test.
If you do not recognize this email, please delete the email.

④ If the registered e-mail address is correct, you will receive a test e-mail as shown on the left.

※ Test completed. ※

When you do not receive any contact

1. Please make sure that the email address you entered is correct.
2. The e-mail may have been blocked by anti-spam measures. Please set the sender's address as the designated recipient.
3. *The sender's e-mail address : tmdu@asp21.emc-call3rd.jp
The sender's Phone number : '045-345-1105' or '06-7732-7173'

3. App Registration

On smart devices (smartphones/tablets) you can download a dedicated app (free) to receive and respond to communications.

(1) Install the app

iPhone

① Access the app download site from the QR code below

※It can also be found in the APP Store by searching for "Emergency Call".

② Install the app

※You may be asked for your Apple ID and password. Please enter the information you have set up on your own.

※Please do not open the installed application and go directly to the next page.

Andorid

① Access the app download site from the QR code below

※It can also be found in the Google Store by searching for "Emergency Call".

② Install the app

※Please do not open the installed application and go directly to the next page.

(2) App registration and initial setup

- ① Access EMERGENCY CALL from a web browser and log in.
Please refer to “**1. Login**” for the login method.

- ① Tap “My Page” in the My Menu.

- ② Tap “launch or initial setting” under Launch your Emergency Call App at the bottom of My Page to start the Emergency Call application.

When accessing from a PC, scan the QR code in the Launch your Emergency Call to activate the application.

<PC↓>

Launch your Emergency Call App

If you have already downloaded an Emergency Call App, you can do initial setting easily. You can launch your app in case you have already done initial setting.

4. When you receive Emergency message

Phone Call

If you receive a call, follow the guidance and push the button to answer the call.

<Procedure>

① Pick up the phone.

② A message saying "This is 00..." will be played. Check the message and press "0".

③ If there is no damage to you, your family, or your house, and you are able to come to work, press "0".

→ Answer is complete.

④ If there is damage or you are unable to come to work, press "1". Follow the guidance.

→ Answer is complete.

Mail

If you received the message via e-mail, please click on one of the two URLs at the mail to access and respond to the questions.
