## For unity vol.1

### **Medical Hospital**

TMDU

## **Dental Hospital**

With the Functional Enhancement Building serving as the entrance to both the Medical and the Dental Buildings, we will integrate the Medical Hospital and the Dental Hospital by the concentration of functions and the effective utilization of buildings, with the aim of preparing the highest level of healthcare environment to address an ultra-aging society.

All blood tests to be carried

out at "one site" for better readability.

Radiology Center Reinforcement of the current cooperation

#### **Division of Pharmacy**

Sharing the operations of the division between the Medical and the Dental Buildings depending on the type of operation

Beginning October 2021, the two will be integrated, giving rise to the

# Tokyo Medical and Dental University Hospital.

Integration will continue to be carried out as needed.

### Division of Clinical Safety

Unification of the safety management guidelines and systems (under consideration)

### Division of Infection Control

Integration of the infection control standards (under consideration)

# Division of Medical Welfare and Liaison

Promotion of mutual referrals in the hospital (under consideration)
