

## **Job Opportunity: Associate Professor in Department of Biodefense Research**

Medical Research Institute (MRI) of Tokyo Medical and Dental University (TMDU) invites applications for a faculty position (Associate Professor) in the field of Biodefense Research.

### **1. Position**

Associate Professor

### **2. Areas of Research**

The principal aim of our lab is to understand the maintenance and transfiguration of homeostasis in the living body. To accomplish this goal, we are trying to clarify the molecular basis of induction and failure of homeostasis by focusing on immune cells in particular innate immune cells (dendritic cells and macrophages), tissue stem cells, and their functional interplay. On the basis of our findings, we will further pursue our research in the hope of developing new rational therapies for the prevention and treatment of disease. Accordingly, we seek candidates who have outstanding research achievements in the field of homeostasis and disease pathophysiology with a focus on innate immune cell differentiation, including stress hematopoietic responses.
