

**Job offer for Associate Professor Position, Research Core
Tokyo Medical and Dental University (TMDU)**

Outline of the open call

The Research Core is a common facility at the Tokyo Medical and Dental University (TMDU) that aims to provide research support and experimental assistance to produce outstanding results. In this recruitment, we are looking for individuals who can integrate cutting-edge life science technologies with specialized knowledge of pathological tissues to develop new spatial omics analysis experimental techniques, as well as those who excel in leadership to expand support services in this field. Additionally, candidates who agree to obtain a Radiation Handler License at the time of appointment and can provide support for RI experiments for our university's researchers will be given priority in recruitment.
