

Job Opportunity: Assistant Professor in the Department of Biochemical Pathophysiology

Medical Research Institute (MRI) of Tokyo Medical and Dental University (TMDU) invites applications for a faculty position (Assistant Professor) in the Department of Biochemical Pathophysiology

1. Position

Assistant Professor

2. Areas of Research

In the Department of Biochemical Pathophysiology, we investigate the pathophysiology of intractable diseases and aging from a chemical perspective. Our research focuses on developing intervention methods and evaluation techniques for these conditions. To achieve our goals, we develop and utilize techniques for measuring fluctuations in metabolic products, including lipids, which arise from interactions between genetic and environmental factors. We are committed to exploring novel bioactive substances using these methods. To facilitate the smooth progress of our research, we are seeking a researcher with a proven track record in biochemical and molecular biological analysis of cultured cell lines and human/animal-derived specimens. We highly value a researcher with broad knowledge in related fields who can actively explore new research areas while mentoring undergraduate and graduate students.

3. Terms and Conditions of Employment

The contract of Full-time position will start from June 1, 2024, or later and will not exceed five years period, renewable based on an evaluation according to the rules and regulations of TMDU once.
