

Graduate School  
**Special Lecture**  
大学院特別講義

(医歯学先端研究特論)(生命理工学先端研究特論)  
(生命理工医療科学先端研究特論) (医歯理工学先端研究特論)

This lecture will be delivered in English and include a presentation followed by the interactive question and answer (Q&A) session and discussion.

**1. Speaker: Dr. Mari Asami, PhD**

**Department of Environmental Health, National Institute of Public Health**

**2. Title: Environmental risk management and water safety**

**3. Time: Thursday, June 9, 2022; 14:00 - 15:30**

**4. Venue: Via Zoom**

**5. Abstract: The physical environment provides basis for public, community, and individual health. Human health is influenced by environmental conditions. Many diseases and health disorders are preventable by proper management of environmental risk factors. This lecture focuses on environmental problems, especially water safety and management which impact on human health. The topics include (1) History of pandemics, (2) History of water supply and safety in Japan and the world, (3) Water supply and infectious disease control, (4) Economic growth and environmental health issues in Japan, and (5) Environmental health risk management.**

**6. 申込期限 : 6 月 6 日 (月)**
