

Graduate School
Special Lecture
大学院特別講義

(医歯学先端研究特論)

(生命理工医療科学先端研究特論) (医歯理工学先端研究特論)

This lecture will be delivered in English and include a presentation followed by the interactive question and answer (Q&A) session and discussion.

1. Speaker: 橋爪 真弘 教授

東京大学大学院 医学系研究科 国際保健学専攻 国際保健政策学教室

Professor Masahiro Hashizume

Tokyo University

2. Title: **Research for Planetary Health: Evidence from modeling studies to understand temperature-related health issues**

3. Language: **English**

4. Time: **Thursday, April 25, 2024; 13:00 – 15:00**

5. Venue: **Zoom**

6. Abstract: Professor Masahiro Hashizume provides a graduate school special lecture "Research for Planetary Health: Evidence from modeling studies to understand temperature-related health issues". Planetary Health is a solutions-oriented, transdisciplinary field and social movement focused on analyzing and addressing the impacts of human disruptions to Earth's natural systems on human health and all life on Earth (Planetary Health Alliance).

Professor Hashizume presents studies to quantify health impacts of climate change by analyzing global level datasets with advanced statistical modeling tools. Also Professor Hashizume shares the trend of impact of climate change on health, future projections, adaptation strategies and health co-benefits of mitigation policies.

This lecture will be delivered in English.

7. 申込期限：4月23日（火）

Please send your interest to participate in the lecture to the following by April 23th, Tuesday, with the subject line “Special Lecture April 25th”.
