

Essential Expertise for Clinical Dentistry (EECD) 7 (AY2021)

This course offers you up-to-date dental clinical knowledge and techniques that are often publicized in journals or books. Experts in various fields/team EECD will provide hands-on sessions during summer and conduct case-based discussions (treatment planning session) in winter. EECD aims at not only 1) updating participants' dental knowledge but also 2) developing and brushing up clinical techniques (hands on sessions). You will have the chance to actually engage in discussions with your peers and join hands on clinical focused sessions.

Overview

- You should join all assigned sessions.
- Each hands-on session is 180 minutes (except for the optional session (orthodontics)).
- Treatment planning session is 90 minutes via a web conferencing system.

In this course, you will:

- Learn dental knowledge and perspectives through interactive sessions.
- Practice clinical techniques and skills in the hands on sessions.

After this course, you will be able to:

- Have new dental knowledge and new approaches for future treatments.
- Consider your clinical cases from a critical perspective and acquire new approaches for your treatments.
- Use skills for clinical procedures.

Textbook (none)

Instructor will provide the written materials, if any.

Note

- Maximum enrollment for this course is 20. (Priority will be given to those who have never taken an EECD course, with exception of EECD6. It will not be counted as it was only held online.)
- Only those who have graduated from a dental school can join this course.
- A certificate of completion will be given to those who attend every assigned session. *Orthodontics session is an optional and not counted as the assigned session.

Hands-on Session: 16:00-19:00 (at pre-clinical training room (3rd floor) or neustadt japan room (5th floor), building #7)

Date	Lecturer	Title
Aug. 17	Dr. KANAZAWA Manabu and Dr. KOMAGAMINE Yuriko	Removable prosthodontics (3 rd floor) Complete denture prosthodontics using soft relining materials (Supported by Tokuyama)
Aug. 19	Dr. YONEMITSU Ikuo *17:20-19:40 *Maximum enrollment is 5	Orthodontics (5 th floor) *Optional session A treatment for Class I crowding case using sliding mechanics
