

SFB1190 Minisymposium
**ORGANELLE ZONES MEET
COMPARTMENTAL GATES
AND CONTACT SITES**

ORGANELLE ZONE

May 2nd 2019, MPI for Experimental Medicine
Hermann-Rein-Straße 3, 37075 Göttingen
11 A.M. - 4 P.M.

AKIHIKO NAKANO (RIKEN Center for Advanced Photonics)

Dynamics of protein sorting zones within and around the Golgi apparatus as visualized by high-speed super-resolution live imaging SCLIM

AKIHIRO IKEDA (University of Wisconsin, Madison)

The role of TMEM135, a novel regulator of mitochondrial dynamics, in aging

YASUSHI TAMURA (Yamagata University)

Two independent regulatory mechanisms controlling the number of ER-mitochondria contact sites

FUBITO NAKATSU (Niigata University)

Membrane contact sites: zones for lipid countertransport

Hosted by: Blanche Schwappach
